FSM Brand Banquet Forage Oats offer quick establishment, excellent standability and superior yields. The forage quality excels that of other industry favorites with the 30 hour NDFd exceeding 74%! Banquet also demonstrated surprising levels of heat tolerance and very good rust resistance in a recent Pennsylvania trial. Drill 3/4 - 1 inch deep into a firm seed bed. Harvest in the boot stage for highest forage production and best feed quality.

FSM Brand Banquet Forage Oats can be treated with **Myco-Seed Treat** prior to planting for enhanced seedling establishment at a rate of 4oz/100#.

Use an **Agri-Energy Hay Fertility Program** to supply balanced nutrition throughout the growing season, including, essential calcium, phosphorus, and potassium.

*FSM Brand Banquet Forage Oats are non-GMO and untreated, however, always confirm acceptability for organic production with your certifying organization. *Results from a 2014 Pennsylvania trial.*
