Serving Your Seed Needs Since 1995!

FSM Brand BCC Wildlife Plot Mix

FSM Brand BCC Wildlife Plot Mix is a very palatable, high-protein combination of brassicas, clover, and chicory. Attract deer and wildlife and watch them grow on this nutritious food source!

Features:

- Highly palatable mix of brassicas, clover & chicory
- Plant in spring or early summer, establishes best with moderate temperatures & adequate moisture
- Widely adapted, performs best on soils with moderate to good fertility & drainage

FSM Brand BCC Wildlife Plot Mix is high yielding and very nutritious with excellent forage protein and energy levels.

BCC varieties are tolerant of close-grazing, winter hardy and resistant to bolting.

Development: Non-GMO varieties

Seeding Rate: 8# plants 1/2 acre

FSM Brand BCC Mix will benefit from **Mycro-Seed Treat** inoculation, with proper rhizobium added to untreated seed, before planting at a rate of 4oz per 50# of seed.

Use an **AgriEnergy Food Plot Fertility Program** to supply balanced nutrition throughout the growing season, including, essential calcium, phosphorus, and potassium.

FSM Brand BCC Wildlife Plot Mix is available untreated, however, always confirm acceptability for organic production with your certifying organization.
