

# Copper - O

NET WT \_\_\_\_\_

\_\_\_\_\_ Gallons

**GUARANTEED ANALYSIS:**

Copper (Cu).....4%

**Derived from:** Copper Sulfate

**RECOMMENDED RATE:**

**Foliar Applied:** 4 ounces/acre—64 ounces /acre

**Soil Applied:** .25 gallons/acre—5 gallons/acre

A documented Copper deficiency is necessary when using Copper O in an organic production system, because Copper L is produced with materials that are restricted by the National Organic Program.

Meets National Organic Program requirements for organic production.

Contains NO Genetically Modified Organisms.

This product is intended for use according to an approved organic system plan.

All ingredients in Copper O are either allowed nonsynthetic substances or synthetic substances allowed for use as plant or soil amendments per 7 CFR 205.601(j)

**It is each certified organic growers responsibility to get approval from his/her certifying agency before using this product. Because of differences among the various certifying agencies, and differences between NOP/EU/JAS COR ingredient lists, AgriEnergy Solutions cannot guarantee that our products will be allowed by your certifier on your farm.**
